

Pararapide Fleece

Product Ref: (DsL18-0516)
Issue No: 01

DESCRIPTION

Pararapide Fleece is a mechanically strengthened and heat-set, special synthetic-fibre fleece specially designed for use with Pararapide waterproofing resins. The fleece enables the layer thickness to be controlled when applying waterproofing resins and also has a strengthening and crack-bridging effect in the hardened waterproofing layer.

USE

Pararapide Fleece is used as reinforcement and to ensure a minimum layer thickness for waterproofing resins to create high-quality, flexible and crack-bridging waterproofing systems.

PACKAGING

Pararapide Fleece is sold in 50 m rolls which are available in two widths:

260 mm (0.26 cm)
1050 mm (1.05 m)

COLOURS

Pararapide Fleece is only available in white.

APPLICATION

A single layer of the fleece is fully saturated with Pararapide waterproofing resins when applied. The joints must have at least a 5 cm overlap. For further information please refer to the product information sheets for the applied resin.

SAFETY

Store **Pararapide Fleece** in a dry place, protected against moisture and dirt, and if possible, in a horizontal position.
